

Youth Brigade, No Difference Anyway

I'm not okay, with the results today
A representative democracy
What happened to me,
Has got the best of me,
At this run's, still on jubilee.

And I,
Know it's all a bunch of shit,
We don't elect the government.
Rub it in our face again,
The news is old, but still rings true,
We make no difference anyway!
We make no difference anyway!

It's not okay, for them to get away
With representative hypocrisy
Utility (utility) will be the death of me,
Unless I find something to believe.

And I,
Know it's all a bunch of shit,
We don't elect the government.
Rub it in our face again,
The news is old, but still rings true,
We make no difference anyway!
We make no difference anyway!
We make no difference anyway!
We make no difference anyway!

Doesn't seem to make much sense,
We're all sitting on the fence.
Democracy is meaningless,
Our voices have no consequence.
So look to them to make the change,
And make the rules, it's their game.
Power, money, corruption,
Need hypocrisy to succeed.

And I,
Know it's all a bunch of shit,
We don't elect the government,
Rub it in our face again,
The news is old, but still rings true,
We make no difference!
We make no difference!
We make no difference anyway!
