

Youth Lagoon, Mute

Looking in a 3D world
Where the crowd is in control
You said some small, talked some rubbish..
The devil ... to take my mind
But I can't quite get inside
A place I try any other guy
Why we... looking for guys to...
And just like...
It's all...

As I keep the roses growing ...
All the other corpses we left...
I've never seen them /4x
There's a vacant watching from the ...
All the...that story we was told
I've never seen them
I've never, never seen them!
