

# Yukka, Starlight

It isn't safe - but I'm loving the danger  
The nasty girl with the face of an angel  
The time is right  
I am taking her for a ride  
And tonight she will bite

In the starlight

I know that I never will tame her  
There is no man that could ever restrain her  
It feels so right  
I am stepping into the light  
And tonight she will bite

It's a clear night  
Going outside  
I'll be taking of my clothes  
and then I'll jump into the river  
What will she do?  
She used to stay by the side  
But tonight she will bite

In the starlight
