

# Zaga Rehn, Evolution (by Dreamstate)

I'm awake and I'm alive  
Coming back from the other side  
On way to final destination  
Adrenaline intensifye  
Hold on and you can find  
I believe in the power of my dedication  
From the end and burning eyes  
Oh, come defias  
Shift gear and ride through the fire  
Be strong and sacrifice and hands of reliance  
Head first in to the fight, my only desire

In the end, break the line  
Race against the hands of time  
All we are is the final solution  
Make it last  
Be the one  
As we all shape the things to come  
It's time to embrace the evolution

Step up and testify  
A new beginning  
My burning heart and my devotion  
All I leave to satisfy  
'Cus be my enemy  
I buy my time alone, my inner emotion

In the end, break the line  
Race against the hands of time  
All we are is the final solution  
Make it last  
Be the one  
As we all shape the things to come  
It's time to embrace the evolution

And I wanna bring you down  
Standing power never crowned  
Evolution feeds my life

In the end, break the line  
Race against the hands of time  
All we are is the final solution  
Make it last  
Be the one  
As we all shape the things to come  
It's time to embrace the evolution

In the end, break the line  
Race against the hands of time  
All we are is the final solution  
Make it last  
Be the one  
As we all shape the things to come  
It's time to embrace the evolution
