

Bad Religion, Atheist Peace

Maybe it's too late for intellectual debate
But a residue of confusion remains
All changin' with the times
And you better make up your minds
Are the average citizens sources of pain?
Yea
(Tell me what we're fighting for)
I don't remember anymore
Only temporary reprieve
And the world might cease
If we fail to tame the beast
From the faith that you release
Comes an atheist peace
Ooo ooo ooo
Atheist peace
Political forces render
Bitter cold winds of discontent
And the modern age emerged triumphantly
But now it seemed we've stalled
And it's time to de evolve
And relive the dark chapters of history
Yea
(Tell me what we're fighting for)
No progress ever came from war
Only a false sense of increase
And the world won't wait
For the truth upon a plate
But we're ready now to feast on an atheist peace
Ooo hoo ooo yea
(Ooo hoo)
Ooo hoo ooo
Atheist peace
