

# Bad Religion, Million Days

Bad Religion

Into The Unknown

Million Days

when you're sitting alone, frown and groan  
over your bad day

when you're laughing with peers

forget your years, then be on your way

but don't forget, all the while

that you've crossed the social mile

and a million days is worth one good laugh

but don't forget, all the while

that you've crossed the social mile

and a million days is worth one good laugh.
