

# Bad Religion, Two Babies In The Dark

There's a light on in the hallway  
So I can't understand  
Why I hide underneath the covers  
There's a baby in your womb  
So don't be scared tonight  
Raggedy Ann is in the closet picking posies  
Two babies in the dark  
Like diamonds in the sand  
While papa's far away  
Making up children's stories  
The little one's inside  
So afraid to be alone  
She's tryna be a brave  
Until the daddy comes home  
So if you've chance to see her  
Please tell her it's alright  
'Cause everybody fights the tendency to snap  
Sometimes it's not a matter  
Of being brave and strong  
'Cause noises in the house are terrifying  
Two babies in the dark  
Like diamonds in the sand  
While papa's far away  
Making up children's stories  
The little one's inside  
So afraid to be alone  
She's talking to herself  
Now there's no one's home  
I'll put you to sleep tonight  
Like a foreign movie  
I'll sing you lullabies  
And I'll teach you about everything  
And I'll only ask one thing  
Please save me
