

Conan Gray, Astronomy

We drive through the woods
Rich neighborhoods to watch
We joke as we looked
That they were too good for us

Cause socially speaking
We were the same
With runaway fathers
And mothers who drank
A tale old as time
Young love don;t last for life
And now i know
Now i know
It's time to go
It's time to go

We've traveled the seas
We've ridden the stars
We've eseen everything from Saturn to mars
As much as it seems
Like you own my heart
It's astronomy
We;re two worlds apart
It;s aastronomy
We;re two worlds apart

From far away
I wish i'd stayed wit hyou
But here face to face
A stranger that i once knew
I thought if i wandered
I'd fall back in love
You said distance brings fondness
But guess not with us

The only mistake that we dodn't make
Was run
Now look what we've done

We've traveled the seas
We've ridden the stars
We've eseen everything from Saturn to mars
As much as it seems
Like you own my heart
It's astronomy
We;re two worlds apart
It;s aastronomy
We;re two worlds apart

Stop tryna keep us alive
You're pointing at stars in teh sky
That already died
Stop tryna keep us alive
You can't force the stars to align
When they've already died
We're died

We've traveled the seas
We've ridden the stars
We've eseen everything from Saturn to mars
As much as it seems
Like you own my heart
It's astronomy
We;re two worlds apart
