

Conan Gray, Overdrive

Only met on the weekend
Said i am not catching feelings
Oh i guess i lived
Driving off the deep end
I can't think of a reason
We shpould take our time

All or nothing
Let's just trust the night*

Burning down the street no left right letd right
I don;t want to see no red light , red light
Fast lane on the beat go ten 5 10, 5
You right next ti me
Feel the heat
Going overdrive
Going overdrive

I know you're a stranger
But i am liking the danger
Of the „ i don't know”
Don't give a fuck about labels
Throw the dice on the table
And just let tchem roll

All or nothing
Let's just trust the night*

Burning down the street no left right letd right
I don;t want to see no red light , red light
Fast lane on the beat go ten 5 10, 5
You right next ti me
Feel the heat
Going overdrive
Going overdrive
