

# Daniel Bloom, How We Disappear (feat. Gaba Ku

What are we doing, Rosanne?  
Glass summer, grazing  
... on the parking ...  
The city is blooming  
We looks so bored and perfect in that blurry ...  
A frame of dislocating time  
Fade by the sun  
Stuck inside my mind

What about the world inside the ...  
That seems so tiny  
What about the friends we meant to kill  
We never dare it will be long  
No matter who you choose to be  
Who you choose to be

What about the fun we had for free  
We can't afford it now  
What about the things we've never thought to feel  
I think about it all the time  
And wonder how you disappear

What are we doing  
And after ...  
Forever to unfold  
It felt like a movie  
We could rewind every child look credits ...

It's time  
It's nothing here to learn  
.. miles away  
Never to return

What about the world inside the ...  
That seems so tiny  
What about the friends we meant to kill  
We never dare it will be long  
No matter who you choose to be  
Who you choose to be

What about the fun we had for free  
We can't afford it now  
What about the things we've never thought to feel  
We never got a creepy ...  
And wonder how we disappear
