

# Eldritch, Under This Ground

Another boy in lost again  
under our horrified eyes  
one by one are swallowed and  
what we hear are parent's cries  
a weekend with drunk friends  
and your ride home ia a funeral march  
can't you see it makes no sense  
to blow your head and drive your car

High velocity comes in control of their vehicles  
their reflexes decreased by deafening noise  
irresponsible youth back to town from the farest disco  
treating danger as the new exciting toy  
I doubt you'll have fun under this ground, I really doubt it  
I doubt you'll have fun under this ground, I really doubt it  
let's see you dancing as the bells sound

## CHORUS

Senseless way for you to die  
is your life worth just a dime?  
one day is left for goodbye  
forever you'll pay for your crime

After a too long night spent in wild thrashing  
you feel no pain and your brain is washed away  
overnigth heroes put na end to this abusing  
you crash and burn and death is the price you pay

I doubt you'll have fun under this ground, Ireally doubt it  
I doubt you'll have fun under this ground , I fuckin'doubt it  
let's see you dancing as the bells sound

## CHORUS

Senseless way for you to die  
is your life worth just a dime?  
one day is left for goodbye  
forever you'll pay for your crime
