

Hoobastank, Lucky

I knew how it felt to be another one in need of someone to show the way
Until you saw a part of me that nobody else
Could see and my life hasn't been the same...

[Chorus:]

You make me feel lucky as I can be... [x2]

Before I couldn't get a break,
Never had a chance to make
The impressions I want to
But now it falls right into place
When I get to see your face
Then there's nothing that I can't do...

[Chorus]

No more dark days, only sun rays
No more hard ways with you today

You make me feel....

[Chorus]
