

# Hoobastank, Lucky

I knew how it felt to be another one in need of someone to show the way  
Until you saw a part of me that nobody else  
Could see and my life hasn't been the same...

[Chorus:]

You make me feel lucky as I can be... [x2]

Before I couldn't get a break,  
Never had a chance to make  
The impressions I want to  
But now it falls right into place  
When I get to see your face  
Then there's nothing that I can't do...

[Chorus]

No more dark days, only sun rays  
No more hard ways with you today

You make me feel....

[Chorus]
