## Hoobastank, Lucky

I knew how it felt to be another one in need of someone to show the way Until you saw a part of me that nobody else Could see and my life hasn't been the same...

[Chorus:] You make me feel lucky as I can be... [x2]

Before I couldn't get a break, Never had a chance to make The impressions I want to But now it falls right into place When I get to see your face Then there's nothing that I can't do...

[Chorus]

No more dark days, only sun rays No more hard ways with you today

You make me feel....

[Chorus]
