

Lacuna Coil, Die & Rise

Die, die!

Werewolf in the night light, you won't believe your eyes
Drowning in the red light, she's getting down, getting down
She'll never turn me down, put another stake into my heart
There's evil in her eyes
I cheated death and I come back alive

Die and rise, I'm taken by your lies
Die and rise, with no regrets
Die, die.

Black queen in the mirror, she's pulling me aside
One those of the white light, I'm shutting out, shutting out
I want to wake you up in the middle of a perfect dream
A turning me inside
I cheated death and I come back alive

Die and rise, I'm taken by your lies
Die and rise, with no regrets
Die, die.

Die and rise, I'm taken by your lies
Die and rise, with no regrets
Die, die.
