

# League of Legends, Burn It All Down (wyk. PVRIS)

This ain't where the Legends come from  
You're not what a hero looks like  
Pretty little flower won't you sit back down and go play nice

Keep talking, keep laighting  
One day you will see what happens  
All teh people want fire, fire!  
It's about timnew they meet their Dragon

If you're gonna hold me down  
And you're not gonna let me in  
Into your castle walls  
None of you can keep them

Cause if I gotta  
Burn it all down  
Then we'll burn it all down  
my o! my,  
Look at who end up bigger this time  
And if I gotta  
Break it all down  
Then let's break it all down  
Bye bye bye  
Playing with fire  
And we burn it all down

This is where the bruises come from  
Thi sis when the game gets ugly  
These bloofd , sweat & tears keep running  
Lickinf my plate  
Cause i am so hungry

Keep talking, keep laighting  
One day you will see what happens  
All teh people want fire, fire!  
It's about timnew they meet their Dragon

If you're gonna hold me down  
And you're not gonna let me in  
Into your castle walls  
None of you can keep them

Cause if I gotta  
Burn it all down  
Then we'll burn it all down  
my o! my,  
Look at who end up bigger this time  
And if I gotta  
Break it all down  
Then let's break it all down  
Bye bye bye  
Playing with fire  
And we burn it all down

It starts right now  
Baby you're surrounded  
Put your money where your mouth is  
Bury your doubts under the ground  
And they gonna watch you step over the ashes  
Right now i'm taking my turn with the matches

Cause if I gotta  
Burn it all down  
Then we'll burn it all down

my o! my,  
Look at who end up bigger this time  
And if I gotta  
Break it all down  
Then let's break it all down  
Bye bye bye  
Playing with fire  
And we burn it all down
