Simply Red, Forever

As I look into your eyes I see the sunrise
The light behind your face helps me realise
Will we sleep and sometimes love until the moon shines
Maybe the next time III be yours and maybe youll be mine
I dont know if its even in your mind at all

It could be me

At this moment in time Is it in your mind at all

It should be me, it could be me Forever

Wandering through life will love come home to you And the love you want forever, will they be true to you Will we sleep and sometimes love until the moon shines Maybe the next time III be yours and maybe youll be mine I dont know if its even in your mind at all

It could be me

At this moment in time Loves indescribable

It should be me, it could be me

Forever

Easy, ready, willing, over time

Where does it stop where do you dare me to draw the line

Youve got the body now you want my soul

Dont even think about it say no go

Sunrise

I dont know if its even in your mind at all

It could be me

At this moment in time

Is it in your mind at all

It should be me, it could be me

Forever

Sunrise

At this moment in time Is it in your mind at all

It should be me, it could be me

Forever
