

# Snowbird, All Wishes Are Ghosts

All wishes are ghost, wating dream above  
May hight down like ...send the snow  
And all I see in space they hicking they goes around  
They mean but they didn't ...  
We hold down inside  
They know they run us onside but we coming  
I wish are ghost  
Waiting ...like hight down ...in the snow  
And they we stay in whisperin that happy...  
I'm moving on and we hide down

Got all the ..is inside but we get, we giving hard of this  
When in the end is brake through since they felt from remeber  
And carry remeber they day when they do their way...  
Anybody will..since they  
When in the end is brake through since...  
Sometime you'll be by my side ..  
When in the end is brake through since they felt from remeber  
And carry remeber they day when they do their way...  
Anybody will.. since they ..and they are comign on all this time  
Try to be by my side  
And then when you ..some of they say theit outside  
And then whenyou're here and you ...and they say their outside  
You lay home and say  
Say that you fall asleep and some may say  
You lay home ...just still here my darling  
Just still here, still here  
Still here, still here, still here  
Still here, still here, still here  
Just still here, still here, just still here
