

# Subb, A Little More Of Chomsky (A Little Less Of

Voice yourself!  
And you might understand the consequences  
And everything...  
You couldn't get a hold on

You have one heart,  
you have one soul,  
Think for yourself  
And raise Your voice, come on!  
And change the things they've done

I don't think you'll notice  
What is right or wrong  
The difference ain't that different  
When it's written in this song  
A little more of Chomsky  
A little less of you and me

You better voice yourself!  
And you might understand the consequences  
And everything...  
You couldn't get a hold on

I don't think you'll notice  
What is right or wrong  
The difference ain't that different  
When it's written in this song  
A little more of Chomsky  
A little less of you and me

We cannot go on without change... no!

I don't think you'll notice  
What is right or wrong  
The difference ain't that different  
When it's written in this song  
A little more of Chomsky  
A little less of you and me
