

Subb, Choices

Why are we running today?
When we could find a new way
We must not wait for a chance
We may not get a new chance
Why are we wasting our time?
Trusting a luck that just binds
One by one we're all falling
And we are seeing The end!
Why don't we find a new way?
Why don't we find a new way? 'Choices'
We just can't live for another day
So why don't we find a new way? 'Choices'
We have some choices to make
Do it at least for your own sake
It won't be easy, for you
Stewed and nothing to do
We all swallow a pill
A pill you don't have to feel
So stop now wasting your breath
And stop waiting for death
[Chorus]
We have some choices to make 'Choices'
We have some choices to make 'Choices'
Fuckin' choices
