

# Subb, Sitting Out Another Dance

"Tension...oh oh!

It's building up inside, you waisted my life/time

It's my life, i can say what i want to say

You may not like it but i'm gonna tell you anyway

Fuck you, you never gave me any chance

This is what you get, you're sitting out another dance

It's about time that you put your act together

We're stuck in the same groove, the momentum ain't a factor

I'm just sick of you lies you never gave me any chance

This is what you get, you're sitting out another dance

Malfunction in the system, same problem in your brain

You know exactly who you'll blame and things will stay the same

You kick me when i'm down, it doesn't make a sound

You kick me and i'm always down i won't be around...

Tension...oh oh!"
